

## Recent Operations

By Paul Barlin

Here's what I heard a fellow say Tuesday: "They ain't gonna mess up on this gasoline business 'cause I fill up before 7 p. m. and carry a five gallon can of gas in the back of my car."

Now, there's a fellow who deserves part of his living from the government and takes that view of things. Personally, I don't display the essence of ignorance.

Sure, he can fill up before 7 p. m. and carry a five gallon can in the back of his car, if he so desires. But, what kind of a fellow is he?

If this 7 a. m. to 7 p. m. clothing business doesn't produce the desired results, Petroleum Co. Ordinance will be a rule that will produce the desired results. I suggest that we save all the gasoline we can.

Government officials suggest that we reduce our gas consumption by one-third, and that we follow the government's suggestion.

I wouldn't like to drive up to a station with a ration card in my hand—but that's what's coming if we don't conserve our gas.

You've seen newspapers from foreign countries where folks were forced to ride bicycles on account of a gas shortage. You say "it can't happen here." Well, my friend, stranger things have happened in America and stranger things may happen again.

I hadn't thought much about how to save gas when driving a car until I started reading those government bulletins. Now, I make an earnest effort to cut off a little slower—I don't pump the accelerator and I don't race the motor. I think I can save it. It would save much gas—but suppose the millions of drivers in America saved a gallon or two a year per car.

## To Install Machine Shop

W. R. Shackford has a crew of men working on the building which has been used to house the County garage. The entire building is being overhauled and a new concrete floor is being put in. The new plans to house the machine shop of modern design just as soon as the building is completed.

## D. D. Caudill Speaks To Pahokee Rotates

D. D. Caudill, principal of Pahokee school, was the speaker at the regular weekly meeting of the Pahokee Rotary club yesterday. Mr. Caudill, pinch-hitting for a speaker who failed to appear, told members of the club that the school was the fastest growing in the county. He pointed out that the school, with its new buildings, will offer several new courses not heretofore available in the Glades. He familiarized the group with the intricate workings of a high school. The talk was warmly received by the members.

Rupert Mock was the official visitor from the Pahokee Lions club and Clarence Ellis, Palm Beach Rotarian, was the other visitor.

## ITS LIEUTENANT CLIFTON

John Clifton, who heads the state highway patrol who recently was promoted to Lieutenant, has been assisting in direction of the patrol school at Lakeland. A picture in the Tampa Daily Times showed Lieut. Clifton training patrol rookies on the night motor and also giving them arithmetic. Lieut. Clifton is stationed at Camp Blending but was called to Lakeland for the training period.

## BOME FROM GEORGIA

Carl Davis returned the first of the week to Pahokee after spending the past two weeks with relatives in Colquitt, Ga. Carl is an employee of the Bank of Pahokee.

## ERECT SCHOOL

The new Negro school, 52 by 95 feet, of frame construction, is being built at Bean City. Piling is being driven to rock and will be used for electric light poles. Work is to be completed before opening of the fall term.

## State Of Florida Drivers Take Gas Cut Order Lightly

Fill Up Before 7 p. m. And  
Continue To Let  
'Em Roll

Tampa, Aug. 7.—Florida, along with other eastern seaboard states, felt the first pinch of gasoline conservation this week as practically all gas stations in the state closed their doors from 7 p. m. to 7 a. m. Wholesalers and retailers interviewed were skeptical of the plan from the standpoint of actually cutting the use of gas. They all told of heavy sales as motorists' storming stations to be sure their tanks were full for the night.

The gasoline belief was that the move would only serve to inconvenience a few long distance travelers and that the emergency by carrying an extra can of gas in the back of their car.

It was pointed out that there is no actual shortage of gasoline, simply a limit on transportation facilities, due to the fact that regular coastwise runs and placed in trans-Atlantic service.

Railway officials say there is no shortage of tank cars at this time and contend that rail hauls can relieve the situation but probably would increase the cost to consumers a cent or two a gallon.

Administrators take bluntly warn the public that gas consumption must be voluntarily reduced twenty five percent to effect the conservation plan.

Probably the issuance of "ration" cards and hints on a limit of five gallons per person for pleasure cars with larger ratios for business vehicles able to prove their need.

With state revenue for many years dependent on gas consumption, state officials are wondering what steps can be taken to offset the loss in revenue that will occur when consumption really sets in.

Since a large percentage of Florida's automobiles are now moved to northern markets by motor truck, growers and shippers are worried about the loss of business for pleasure cars.

Chamber of Commerce officials see a threat to our business from this fall and winter and feel that Florida is being unjustly dealt with in view of the fact that motor (Continued on Page 4)

## Seventeen Leave For Blending

Seventeen white trainees left Subjective Service Base 4 Tuesday morning for Camp Blending, Miss Ruth Freeman, chief clerk, said. They were: Buford Frank, Thelma, Grady Reese, George Dees, Thelma Eugene Hollingsworth, Jr., L. L. Stuckey, Victor E. Jones, Thomas, Benjamin Franklin Cook, "Dorell" Payeur, William Frank Andrews and Frederick Frank. The following are who have been transferred however, and this board will receive credit: John L. Stuckey, Victor E. Jones, W. Cheesem, Anthony Chaucy, Willy Lee Hamby, Joseph Melton Caldwell and Edwin Everett Forbes.

## County To Have New Patrolmen

West Palm Beach, Fla., Aug. 7.—Palm Beach County will have a new highway patrol unit be stationed in Palm Beach under the new setup authorized by the recent state legislature.

Patrolmen here now include L. J. Parker, William T. Canale and R. L. Stuckey. Victor E. Jones, license inspector, is attending the police school at Lakeland and will be sent here following close of the course of instruction. Sergeant Mack Britt, now acting as an instructor at the school, may be stationed at the State Highway Patrol school, Patrolman M. R. Larson is scheduled to arrive this week to join the force.

## STUCKY CHANGES BRAND TO DOUBLE L

L. J. Stuckey, owner and operator, the Stuckey Fertilizer Works in Pahokee, has changed the name of his brand of fertilizer to "Double L." Mr. Stuckey feels that the new brand name is one that won't be copied or duplicated in Florida and it is made up from his initials.

Eighty-two new men have been added to the State Highway Patrol under the expansion program authorized by the last legislature.

## Board Postpones Equalization

Equalization of the tax roll and work on the budget was officially postponed for a month by the county commission Monday.

The commission met as a board of equalization, as required by the law. Because of the changes made in the method of evaluating real and personal property, preparation has been delayed. James M. Owens, Jr., tax assessor, told the board the roll would be ready by Sept. 1.

Need for more space by the assessor's office was pointed out by Owens. He declared the crowded condition of the office working a hardship on the clerical force. A committee will be named to investigate the problem as well as find additional space for the board of public instruction.

Owens' report showing receipts of \$21,887.83 and expenses of \$11,103.23, was turned over to the auditing department for checking.

## Bare Legs Order Of The Day When Silk Supply Is All Gone

Ladies May Have Imitation  
Hose Painted  
On Their Legs

Jacksonville, Aug. 7.—Despite frantic appeals to women not to "raid" retail stores for silk stockings, due to the freezing of raw silk supplies by the government, the young ladies in the state's trading centers report sharply in demand for the supply of a customer determined to put in a supply of "silkies" while they still can.

Harriet Elliott, head of the consumers division of the Office of Price Administration and Civilian Supply, termed the common story of silk stockings and other luxuries in quantities as conducting "sneaky raids" and she urged dealers to supply a customer as a matter of fair play.

Bare legs have become popular and likewise imitation hose. It is showing no alarm but rather welcome this excuse to display "bare knees" in public places, and willingness to sacrifice for the national welfare.

Husbands are smiling behind their newspapers and look on with interest in the women's war effort. They hope the situation will continue "critical."

Weekly hoarding has stiffened their toes and point out that Florida is a silk cotton makes a mighty good substitute and hope to see the women's war effort in favor for those who feel that limbs must be covered.

Manufacturers, factories that have been manufacturing silkies goods will turn to rayon and other substitutes and it is generally agreed that the whole thing is a matter of temporary inconvenience.

Local women long ago solved the problem and an RAF flying cadet in training here tells how thousands of girls in Britain have turned to painting "stockings" on their legs.

Shops, similar to our shoe stores, have sprung up throughout London where the supply of a customer may drop in and have her legs painted in any shade to suit her fancy at the trifling sum of 2d (three cents) a leg.

So expect the artists here to be it is difficult to distinguish the painted from the real stockings. The paint seems and imitation double or reinforced heels, pointed or square, and these in turn to painting "stockings" on their legs.

There are no runners to worry about when your stockings are painted on, for they won't run.

## Cabinet Offers Timber For Sale

Tallahassee, Fla., Aug. 7.—More than 7,000,000 board feet of cypress timber on a 3,800-acre tract of state-owned land near headquarters of the St. Johns river has been put on the market by the state. The timber is a very fine, straight, clear, and is a very good piece of cypress timber in Florida.

Prospective buyers have been asked to submit bids for the timber before Nov. 1. The tract was taken off the market several years ago when the land near headquarters of the St. Johns river has been put on the market by the state.

## BIBLE SCHOOL

The eighth annual Daily Vacation Bible School will be conducted at the Community Center at Lakeland on Friday afternoon at 4 o'clock according to the Rev. J. O. Jackson.

A special program has been arranged and will be presented by the teachers from 4 to 5:30 o'clock. All hand work done at school will be displayed and good attendance awards will be presented to each teacher and pupil.

## NAMED TOWN ATTORNEY

Attorney Arthur H. Harris of Pahokee was named town attorney for the Town of South Bay at a meeting held on Tuesday night of this week. Mr. Harris recently was named chief of police of South Bay and has been waging a war on speeding automobiles and drivers. Mr. Harris was formerly a member of the state road patrol.

## Farmers are Urged To Expand Season For Food Growing

Mayo Says Army Demands  
Will Be Met  
Locally

Tallahassee, Aug. 7.—An unusual combination of circumstances pointing to abundant defense requirements offers to vegetable growers in South Florida a golden opportunity to extend their growing seasons and increase their cash incomes. Nathan Mayo, Commissioner of Agriculture, said today.

"It now seems fairly certain that there will be some curtailment in transportation facilities available for agricultural products," Mr. Mayo said. "The transfer of vessels from coastwise to British trade will result in demands upon railroads for troop and defense material transportation, the shifting of manufacturers' plants to war production, and the steps being taken toward the expansion of gasoline will probably be a major problem."

Florida growers stop harvesting their vegetable crops as soon as produce from more northern states begins to compete in the New York and other markets. During this period even our Florida markets are supplied from the northern states.

William L. Wilson, Director of State Farmers' Markets, advised me that the army purchasing centers have been asking for vegetables which they were unable to get for that reason.

Harriet Elliott, head of the consumers division of the Office of Price Administration and Civilian Supply, termed the common story of silk stockings and other luxuries in quantities as conducting "sneaky raids" and she urged dealers to supply a customer as a matter of fair play.

Bare legs have become popular and likewise imitation hose. It is showing no alarm but rather welcome this excuse to display "bare knees" in public places, and willingness to sacrifice for the national welfare.

Husbands are smiling behind their newspapers and look on with interest in the women's war effort. They hope the situation will continue "critical."

## He's Honest

The following is reproduced as a matter of interest from a letter to a view to exemplification:

"East, July 7.—Enmett Peter 'Rip', editor of the 'Lake Region Weekly News', has fitted a new sign in honesty."

A subscriber walked into the paper office and asked for a copy of his paper. He said he had been away for six weeks and settling this account but I've been putting the papers on the mantelpiece and he said he would like to see my paper.

I'm going home now and read them all."

## England Buys Air Field Land

The British government Tuesday started negotiations with the state of Florida through the Embury-Riddle Company of Miami for purchase of land near Lake Okech.

The state cabinet granted a request of the Miami company on behalf of the British government for shortening from 15 to five days the time required for advertising intention to buy state Murphy act land at auction.

Secretary Fred Elliott of the Florida International Improvement Board said Embury-Riddle agents had indicated that about 2,500 acres of land would be acquired by the British government. Of that, 1,000 acres belongs to the state.

The land is between Moore Haven and Clewiston in Hendry county. The tract owned by the state is reversioned to public ownership when owners failed to take advantage of the 1937 Murphy act tax settlement plan.

The Associated Press reported that the cabinet also gave permission for the U. S. Army Air Corps to build a new airfield, about 10 miles west of West Palm Beach for a gunnery range.

The Associated Press reported that the cabinet also gave permission to use all state land in Clay county for army maneuvers.

## Motor Industry Is Anxious To Assist In Conserving Gas

Require driver when involved in accident causing injury or death to stop immediately—render full assistance to injured and completely identify self. Report to nearest police department and make identity known also applies in cases where only property damage is involved.

Driver striking unattached vehicle must stop and either make Department of Motor Vehicle report, or leave written notice in conspicuous place on vehicle's struck, giving name, address and license number.

Drivers involved in accident causing injury or death must notify, by quick report, the nearest police department or Sheriff. In cities police must be given to local police department.

Cornors, upon learning of death resulting from traffic accident required to notify nearest police department of Department of Public Safety.

## Welfare Fund Cash Is Gone And Aid Is Sought From State

County Board Takes Action At Meeting Held Tuesday

Pointing to the depleted county welfare fund, the county board Tuesday asked the state welfare board to take over 138 indigent cases which they declare they will be unable to care for.

The action came at a joint meeting of the county board and welfare workers from District 10, Welfare Board.

"Our money is gone," said Chairman A. A. Poston, "and these cases have got to be cared for."

Communications will be sent to the state welfare board and to Governor Spessard L. Holland on Wednesday.

L. R. Bristol, welfare board director, exhibited a report showing 138 indigent cases of blind, dependent children and blind assistance are being handled at a monthly cost of \$19,371. The request is for \$19,371.

Attending the session were Chairman Poston, Commissioners John Prince and Doyle Crocker; County Clerk, J. M. Lewis; Mr. Alice Martin, welfare board; Mrs. Elizabeth Hobbs, welfare worker, and Mr. C. W. Myrick, chairman of District 10 Welfare Board.

## Lee Tells Chipley Group Holiday On Taxes Is Possible

If Present Amount of Delinquent Taxes Are Collected

Chipley, Aug. 7.—One county Washington could have a one-year tax holiday if its delinquent taxes are collected. He pointed out that these delinquencies are not long due nor antiquated and based on the many small amounts accumulated since 1935. The same applies to many other counties, he stated.

With warning threatening the world, Comptroller Lee told today, "I point out that these huge amounts of delinquent taxes are wrong, just as many small delinquencies, insuring to the benefit of a few individuals, have built up a delinquent total of \$100,000,000 which was wiped out through various tax adjustment acts of the legislature."

## Mock Reports On Convention

At the luncheon meeting of the Pahokee Lions Club Tuesday night Mock gave a report on the recent Lions International Convention in New Orleans, which attended as delegate of the local club.

Carmen Salvatore reported that the Board of Public Instruction has authorized the purchase of the adjoining lot south of Bateman baseball field which is school property. With this addition the field will have a full sized baseball diamond, he said.

President Frank Riddle, who presided, read a letter from Superintendent John T. Leonard in which he thanked the Lions for their work and interest in developing the field.

Browning Beach, program chairman, announced plans for having one meeting a month for business affairs only and excluding social features from other meetings so far as possible. This plan goes into effect immediately with the next meeting designated a business meeting.

H. O. Carlton of Belle Glade and W. C. Myrick of Tampa were visitors.

**FULLER'S FULMINANTS**  
by Fuller Warren

This week I am going to scribble a little about a Florida journalist who has only recently emerged as a top-flight editor. He is the editor of that sprightly journal, the Lakeland Ledger, one

of Florida's better dailies. He is Harris G. Sims.

Sims looks not at all like the popular conception of a newspaperman. He is totally unlike the movie version of a journalist. He does none of the eccentric, erratic things that the cinema pictures penmen as doing.

He is more than six feet tall, and built in proportion. He has a trim physique that indicates exercise, correct eating, not to mention abstemiousness. A few years

ago he could have been mistaken for a Harvard halfback.

The lines of his are etched deeply in the faces of many newspapermen. Not so Sims. His broad, expansive, unlined face looks not unlike the candid countenance of a Presbyterian preacher. In fact, there is something pronouncedly sacerdotal or ministerial about his manner in general. I don't know his religious affiliation, but I'll hazard a guess that he is not less than a deacon, a steward, an elder or maybe a member of the vestry.

The editors of most daily newspapers usually send a reporter out to cover a political rally. But Sims comes himself and does his own reporting. And he has the delightful habit of sitting up on the platform with the candidate which lends not a little dignity to the hearings, as well as comfort to the candidate. I have had the uneasy feeling many times that newspapermen look down on candidates as being a sort of unavoidable and inexcusable pest. But with Sims sitting right up there on the platform, I have no such feeling.

Sims does so much hand-shak-

**Beauty Plus Efficiency Keynote This Kitchen**

Here's a kitchen that will gladden any female heart—and make cooking a real pleasure. For it is not only an efficient kitchen, it is also a room of rare good taste and beauty.

Designed by Paul MacAllister of New York City, nationally famous decorator, this kitchen utilizes the broken U-shape, considered the ideal kitchen arrangement. The sink is placed beneath a window at the bottom of the U. The refrigerator is placed beneath the entry door through which food is brought in. The Frigidaire electric range is located

along the side wall nearest the dining room entrance. All items are connected as a "production line" by cabinets and work counters.

To this efficient layout Mr. MacAllister has added decorative touches of his own. The window over the sink is composed of three pivoted panes of opaque louvers, each of which may be opened individually for ventilation. The curtains are of transparent, easy-to-clean vinylite. The window unit is lighted by fluorescent tubes on each side and at the top. On either side of the window, a set of color is added by a pair of picture ven-

is equipped with such a lovely and charming view that flirting would be impossible. She goes out in the morning and rallies with Harris and she is happy. The "Gals" mentioned a political rally in Lakeland. Mrs. Sims sat right up on the platform with the speaker who were there to "see their piece" for our Franklin. I kept hoping she would get up and say a few words, but she never did.

Sims Lakeland Ledger is one of the very best newspapers in Florida. It is widely and eagerly read in Polk County, and it has considerable influence with the people of that part of Florida. Its editorial policy is a wide variety of subjects. Sims writes them in an easy, chatty, conversational style that makes them very agreeable reading.

Sims is yet a young man. I judge him to be several years short of forty. He is still planning his editorial wings for farther flights into the upper regions of journalism. I am no newspaper prophet, although I can foresee a coming political event. But it is so apparent that it doesn't require the eye of prophecy to see it. But I freely predict that before he has finished, Harris Sims will be at the very top of Florida Journalism.

The 1942 Florida Orange Festival will open Jan. 19 and continue through Jan. 24. It was announced this week by President John A. Smiley, Jr.

Burnis T. Coleman of Pensacola was appointed general counsel for the Unemployment Compensation and Employment Service divisions of the State Industrial Commission.

Paul E. Raymond of Deland, Dean of the Stetson Law School, has been appointed Assistant Attorney General and will act as legal adviser to the newly created Florida Parade Commission.

**OUR LOSS ...THE NATION'S GAIN**

★ ★ ★

EACH one of the many men who are daily stepping out of the dress of the telephone worker into the uniform of our nation's defenders, is a distinct loss to the telephone organization, but a valuable asset to our nation's defense. They are men already trained, self-disciplined and imbued with the true spirit of service which develops steadfastness and self-reliance under the strain of emergencies. Bell Telephone workers acquire these characteristics through training, and the experience gained in maintaining the Bell System's ideals of service.

While these telephone men are performing their duties to the nation, they and their families feel secure, knowing that when their country no longer needs them in its armed services there is a place awaiting them with the telephone company.

At home are 25,000 telephone workers, who, though not wearing the uniform of our nation's defenders, are working harmoniously to expand and safeguard the lines of telephone communication so vital to the nation's defense program.
